ISGQ-2003-M0004244 (joined in progress)

Male 1 exactly, they asked this question Sir, this is very sensitive point we have to shut it off and kill it definitely in the sea of this Dog.

Male 3 Thank you, those are not new, and every once in a while they have priority, they want us to tell them that who used to give the orders to produce the Chemical Weapons and other Weapons, once they asked Lt. General 'Amir and he told them go to Lt.General Husayn, and I told him to tell them Tariq Aziz, why you guys care? This is the country of Iraq you should see who is in charge directly, he is the one that will give you, I am not going to give you the answer, I am not going to give you an official answer. I will give you a regular answer and I told 'Amir "go tell them Tariq 'Aziz gave the answer let them reported", but I don't give official answer. They came this time about this subject of the Defense Ministry's link, the first meeting that 'Amir had with him and he reported to me, and I told him "this is a red line and don't answer him, don't answer him", if he has anything let him come to me and talk to me. And if he discussed it with me, I will tell him talk to such a person, I commanded 'Amir and Riyadh to discussed it with him in Moscow and Paris, and they will tell them look; if there is something related to the Technical Formula then we have to answer it. But this is not technical: producing weapons, how do you guys produce weapons in Russia? Doesn't the Expert Management decide what quantity to produce?

Male 2 Chemical or Missile?

Male 3 All of them, and he wants to ask about

all especially the Chemical, the is a point maybe Lt.General Husayn will explain its details, because they did explained to me, and I understood it. They have brought new information it was not there before, and it is that Iraq bought or contracted or talked about the subject of some kind of Parachutes that are used with Missiles. What is this Parachute? Why do you link it to the Missile? Does it mean? Then you...

- Male 2 You want to make it a Germ?
- Male 3 Yes, the intention is that the Missile will be filled with Chemical or Germ, and when it comes down it will cover a wider circle than the traditional Missile.
- Male 2 That's good they are teaching us things that will be useful in the future.
- Male 3 It's a fact that our people have talked about this kind, but not in intention and they explained it to them, just like Mr. Foreign Minister said, and our guys are, it does exist the subject of searching for a Parachute and the Missile will discharge from it before it hit the ground, and they wanted to attach a camera on the Missile to record, and the camera will explodes with the Missile, they want before the Missile comes down, the camera will come with the Parachute so they can find the parachute's location, not the Enemy, to record the whole event of what's happening to the Missile. So the last they said, weight the Parachute, because the Missile has weight, and the small camera has weight too, so if the Parachute carries a very heavy weight, then your theory will have..So it's getting finalized Sir, this what you call it that belong to the Irrigation Ministry, Scales and [Unintelligible] they have it, we in the 70's and 80's Mr. President you know yourself and the

expert comrades in all fields. We never expected that one day we will be Monitored, never expected, at the end every Iraqi in every field, wherever he goes whichever merchant comes whoever industrialist comes, if you tell him I have this, he will tell you if you have it I will buy it. Until now, and when the information spread they all started talking, the Norwegian, British, Holland, and the Germans, and he tells them that the Iraqis came to me for this business, they are interested on this issue, those are not our friends to joke with us, those are Enemies, the Special Commission are enemies. So every day they come up with these things, but this came to an end Sir, the Chemical and Missiles areas came to

Male 2 Also it has been 5 Years.

an end.

Male 3 Of course, there is work, as a matter of fact the group of the Military Industry God helps them, people in 10's in 100's work every day 20 hours and sometimes until the morning, all this to solve these issues.

> 'Amir came to me and said "this guy is raising an issue that have are having relation with UK, Poland, Brazil, and I don't remember the forth country.

Male 1 Egypt

Male 3 Egypt, I asked him what you mean relation with UK? You really think that UK will give us equipments

Male 2 Didn't he ask the British?

Of course he has asked, I told him that Male 3 I met Margaret Thatcher in 1986 and I asked her why don't you give us weapons? She said that we have decided not to give you weapons. You and Iran, I asked her why didn't we meet the Security Council resolution? And your Honor remembers that, and I told her we are a country that was attacked and our land is occupied by

Iran, and here are the Security Council resolutions, which were written by your ambassador in New York and we agreed to them, why don't you want to give us weapons? She said No and this is our decision.

I told her that "but you are giving weapons to the Iranians", She said No, we are giving them none lethal weapons.

I said what you mean none lethal, you are giving them the Engine for the Senterium Tank, of course the Engine doesn't kill, but when you put the Engine on the Tank and the Tank has Shells then it is killing us, I told him this discussion took place, I went to Hazeltein he was the Defense Minister I discussed the issue with him to tell you the truth Hazeltein was softer than Margaret Thatcher, and he said "we will follow up the issue don't be hopeless".

I told him, the UK will give us Missiles? I said to him "even the Russians are not giving us Missiles"

- Male 2 Even if Americans will give us Missiles, we will buy from them.
- Male 3 I told him me and the Chief of Staff went to Moscow.
- Male 2 The country is fighting for 8 Years, will buy from everybody.
- Male 3 I told him we went to Moscow, and the Russians are our friends and our relations with them were very good, I told them "I want Missile 700 and higher the least 700"? They didn't give me, I told the Soviet Defense Minister and he told me "We don't have this kind of Missiles, we have Nuclear Missiles, Conventional Warheads we don't have" I said to him "Take away the nuclear head and replace it with Conventional Head and I will pay for that".

You remember your Honor's

Instructions. I told him he didn't accept, so the Russians whom were allies of Iraq didn't give us Missiles, you think London will give us? What kind of logic is this? He said Brazil we don't mind and Egypt, I said Egypt...

- Male 2 What does Egypt has?
- Male 3 It's a joke, they solve it Sir, it was solved during the visit, the Chemicals purchase orders of 1988,89,90 there was left one point that was solved too, there is nothing essential left about the Missiles and Chemical, and he did admit in the second meeting he said there issues...

The problem is the Biology, the biology in my expectation and I don't want to hurry now, I think in my estimation that we will solve it, we can find a solution, but in this issue we have to have help from the Russians and the French, I requested from Lt.General 'Amir and Riyadh to get involved on this issue.

The tangible thing is that monitoring is

The tangible thing is that monitoring is going on, and the Factories that...

- Male 2 There are doubts even though they are under the Cameras
- Male 3 Yes, there is nothing-big left of this issue besides the suspicions of the Americans, which is Iraq will produce Biological weapons and maybe uses it for terrorism.
- Male 2 They officially stated that Iraq has hidden Missiles.
- Male 3 No, it was not official, this was Wafiq Al-Samara'I talk
- Male 2 No, beside this, before that, I read a statement from one of the Americans.
- Male 3 Yes, but this is not recognized by the Special Commission, Sir they can't talk about this because the Missiles numbers are very clear because our supplier was the Russians, Soviets, our advanced Missiles are the Russians missiles that we bought, and they have

the list of the purchase orders, sometimes Russians papers get mixed but later they check them and it is clear and it ended, this many 100's of Missiles and here are all the proves they can't do anything.

- Male 2 too bad, if I knew that the war would stop, we would've fire those on Israel.
- Male 3 On this Biological issue, the French and the Russians if they help us/ we can find a solution, I don't think its difficult, and the talk about Iraq is producing and they will use it for terrorism, this is nonsense talk, everybody can say that.
- Male 2 Terrorism is coming to them,
 Americans before 2000 long time and I
 think the British too, it exist I think
 Hamid was recording with one of
 them, I told him in the future terrorism
 will be with weapons of mass
 destructions, so what's going to
 prevent? Technology will advance and
 this is long time ago I mean on 1989,
 we shouldn't be surprise to see to see a
 car bomb with nuclear explodes just
 like Washington, either Germ or
 Chemical.
- Male 3 Sir, any Germ or biologist expert can make it at his home a bottle filled.
- Male 2 So this is coming, it means this story is coming, but not from Iraq.
- Male 3

 No, Sir this they can't do, especially Biological, biology is so simple in it's composition, any biologist can make a bottle filled with Germs and throw it in water tank, and kill 100.000 person, so this is not a country, you can't accuse a country, one person can do it. One American person can do it in a house, next to the White House; there is no real logic in it except if there is a large establishment, like Al-Hakam, in fact Al-Hakam is exposed for destruction, because if they can convince the others too that this establishment with what it

has of equipments, it doesn't have Machines does it Abu 'Ali?

- Male 4 No, No, it has reactors.
- Male 3 Yes, just walls and windows, so for fact they will demand to destroy it, then our position will be strong, because the others will say get rid of this one and...
- Male 2 Just like we got rid of the others.
- Male 4 Sir in Al-Hakam they measured everything, all Air-conditioning, and its soil, and the surrounded area, and its labs, and it ended on 1992 Biology ended.
- Male 2 We know that Biology is far from becoming a story, and then when they finished their job
- Male 5 [Inaudible]
- Male 3 Ekeus did admit to the Russian ambassador that the Americans opened the Biological issue.
- Male 2 Yes, Dr. Ahmad.
- Male 5 Sir President the Leader, I was the director of Al-Hakam, means General Director of Al-Hakam, I met them in Four Rounds, some of the rounds were all day, what displease them is first: the distance of the location, and we answered that the area is truly an industrial area and it has projects for the Military Industrializations and it has paved streets and electricity and water.

And the Second thing is: we have a project in the same area its called PC2, this one is originally for a Mono Protein it prepares the Primary Substance for Al-Hakam Project, which is Methanol, its supplied by the project next to the building across the street, very close.

Sir, one of the questions they asked was, of course their meeting with the individuals was one at a time, beginning from Dr. Ruhab ending with the youngest person and they are a very small number of people, they are not a lot like 100's, very small number. They ask many questions including the following question: How come you guys authorized so much money to this kind of place? I asked him what are the amounts? Whatever you see is administrating building and roofs, and all you saw are bricks and cements and those materials are available in our country, and this is completed industrial area, and it has this and many other projects starting from Fallujah in Saddam's Establishment and Al-Shahid Factory in the other side, and in the other side there is also other projects in the same area. I told him "what details did you see in those ceilings proves of producing Biology, the doors are not secure, not even the structures are for Biological research"?

Male 2

The Palace that the Americans are talking about and are disturbed from it is next to it, if you have Biological would you build a Palace? Talk to them this way. Tell them this Palace that the Americans are calling Saddam Hussein's, this is next to the Biological, if somebody has such a project, why would he build a Palace? Why, the Iraqi is anti germs? Only French and Americans die with Germs?

Male 5

Sir, they started their work, as you know with the Al-Salman Site, and they inspected every inch of the Site, and they used two methods walking, checking the soil, and everything, and the Second method was Helicopters communicating from helicopters with the ground and they were spread all over. And they inspected every square meter in the Al-Salman, I remember one day during the argument somebody

- came happy carrying something...
- Male 2 And also Al-Salman, if it has Biology how could you put Biology next to the Nuclear Reactors, and kill our own Atomic Scientists?
- Male 5 Sir, they saw all this, we even have a presidential building it is not bigger than 500 meters or 400 meters, the building exists and you Sir sometimes you stop by it and you see it.
- Male 2 The one that belongs to the Intelligence.
- Male 5 Yes Sir
- Male 2 Guest House, Yes.
- Male 5 Sir, once we were sitting, and one of them came with him a wing for an Unmanned Aerial Vehicle, I don't know where he found that in garbage or whatever, and the argument on that started.
- Male 2 And they said this is the mother of the Biology.
- Male 5 First, we told them look at its size, the payload was maybe 3 or 3.5 Kg, do you think that this is the great work that we are inventing methods to carry Biological with a Plane, Yes we do have UAV project and the story ends. Sir, on some buildings they asked us where did we throw the waste? We had them away some distance in fact they sent a working group, even in the waste they were looking; they wanted to prove what they could prove that we produced Biological Weapons. I remember at one meeting he had a map and two pictures, one of the Buildings truly was destroyed, and Al-Salman they bombed 14 times, the first day and the last day and in between 12 times, and in every time a plane comes, we have a Building with few floors they didn't leave it alone until they brought it to the ground. So they brought the Two Pictures, and the building itself is not bigger than

half of this table, there was nothing left of it was destroyed, and we told them yes we took the debris away and it was a small building, also they asked where is the Waste of it, they went to the garbage and searched it, and they brought shuffles and they dig about Two meters down in the foundations maybe they will find something has Germs or Biological, they didn't find nothing.

Sir we do have a Site next to Al-Hakam, the area is Projects area many Projects, at that time we wanted to Import Three Fermenters, of course Sir the Fermenters that we have are no good, and they know its Technical Specifications won't produce Biological weapons. And Biological Weapons need temperature with specific pressures, and doors windows etc.. very secured, and very précised specifications, not any site can produce Biological Weapons, we had a Site we wanted to have a Contract with a Swiss Company, the company said we have to see the Site that you want to construct on, they came and saw it, then we didn't have Al-Hakam yet, they came and saw it finally they didn't give us the Fermenters, until the Mother of All Battles happened we didn't get the Fermenters.

Tariq	in the elections Rabin might	
	become Prime Minister or maybe the	
	Likud, but the way he expresses his	
	mind is troubling and concerning as	
	well as economic, personal, and	
	security reasons. Hamas has a direct	
	role in the state of this situation, but	
	they are the only reason. The	
	American's and the Israelis want it to	
	seem as the only reason. The Oslo	
	Agreement even with all that was	
	included in it nothing has changed.	

	Even now with the return of Gaza by	
	Yasser Arafat hasn't affected	
	anything.	
Saddam		
	The return was fragile as well.	
Tariq	He returned Gaza but Gaza's return,	
	uh; they're of Israeli origin. Before	
	they even signed the Oslo Agreement	
	Rabin used to offer to withdraw from	
	the area but he didn't agree to it then	
	he wanted Jericho. Jericho in the	
	sense it would become a piece to a	
	solution. But he soon found that	
	Jericho had nothing in it other than	
	the people living there. So the Oslo	
	Agreement didn't provide the	
	progress it had promised so	
	ambiguously. The relationship, uh; of	
	course the economic side is very	
	important because Yasser Arafat	
	fought to create this agreement in	
	hopes of providing the Palestinians	
	some financial benefits just to be able	
	to say the situation is better. At the	
	very least the Palestinian police	
	returned [Inaudible] and our life has	
	become better. The situation in Gaza	
	and the occupied territory is worse	
	economically than it was in the past.	
	This is a group of people that come	
	to us from within our country, like	
	Comrade Nasif, Abdallah Horani and	
	Comrades in the delegation. In	
	addition to the people in the media.	
	The relationship between those who	
	wanted a resolution was in the worse	
	conditions so when they went to	
	Madrid they were not united. Really	
	from which side were they holding	
	on too, the Foreign Ministry	
	demonstrated and held round table	
	meetings. What where those	
	meetings for, even the MACO	
	meeting? The Jordanians and the	
	Palestinians are different, the	
	Jordanians and Syrians are different,	
	the Palestinians and the Syrians are	

	11.00	Т
	different, there isn't anyone like the	
	other. Sir, the prominent	
	phenomenon now is Egypt.	
Saddam	And the audacity? Now it's	
	something new?	
Tariq	Yes, now there is an agreement and	
	appeal for a new and old power that	
	will become new and be against	
	Yasser Arafat. Now there are a lot of	
	votes from people who want Arafat	
	removed with more parts being from	
	the Palestinian work force than ever	
	before. Sir, Bassam Al-Shakai is an	
	old Baathist, you might know him.	
Saddam	[Inaudible] or serious?	
Tariq	Serious, he was with the Syrians	
	[Inaudible]	
Male 2	[Inaudible]	
Tariq	He isn't head of the organization, but	
	he has a respectable position as	
	Mayor. [Inaudible] the information	
	wasn't completed. Yesterday	
	[Inaudible] had a meeting with	
	George Habash and the organizations	
	that are out of the country	
Saddam	He's someone named Haddad.	
Tariq	Bassam or George	
Saddam	Somebody I don't remember what	
	Haddad.	
Tariq	Yes	
Saddam	He's the one related to what we	
	heard about with George and about	
Tariq	He's one of the people who work in	
	broadcasting; he began to rack up a	
	following with his words. Like his	
	following is only in the occupied	
	territories, you know people like	
Saddam	They all agree that Oslo should be	
Suddum	left in the past.	
Tariq	Yes	
Saddam	And Yasser Arafat shouldn't return	
Saddaili	to lead Palestine.	
Taria	Yes, this is more important than	
Tariq	foreign smuggling	
Saddam		
	And domestically?	
Tariq	The people that do that control the	

municipalities and have a lot of	
followers. Egypt as well, just as you	
know, Egypt was like a child born	
without seed. Like, it finished its	
work and started to play a role in the	
theatre that's not allowed until their	
role has finished or been withdrawn.

settling is everyone's responsibility	
so it's become a forum for everyone's own interests. Putting	
	know, Egypt was like a child born without seed. Like, it finished its work and started to play a role in the theatre that's not allowed until their role has finished or been withdrawn. To be withdrawn. That day Mr. Hamid was over at the actor who played the role of King Gazi, Abd Al-Makhour's. And he got stage fright in filming. During the playing of the role every time he'd enter and exit they'd do full honors for the king [Laughter]. So what does it mean? [Inaudible] No, the Egyptians are, like [Inaudible] [Inaudible] The Egyptians want a role add weight and it doesn't have a clear purpose. [Inaudible] some people prefer to grow a beard.

	meetings together isn't hard because	
	all of the people want to meet. For	
	example everyone in Switzerland can	
	meet for about 1 Egyptian Pound,	
	now Switzerland has grown greatly	
	politically. There isn't a solution to	
	figuring out a settlement easily or	
	that Egypt plays a special role in this	
	war. The last article from the West to	
	come in the Economist about Egypt	
	said that Husny Mubarak is the	
	reason why Egypt isn't suffering	
	through the same conditions as the	
	North African countries. But	
Saddam	[Inaudible] develop.	
Tariq	Yes, and it participated in a unique	
1	way because the method allowed for	
	the Islamic conservatives to connect	
	with the moderates. So right now	
	when a terrorist strikes the fate of the	
	extremists and the moderates are the	
	same.	
Male 4	[Inaudible]	
Tariq	Yes, [Inaudible] the true strength to	
10114	rely on non-suppression, and the	
	weakness that differentiate his	
	administration, and the corruption	
	allegations is true. We would like to	
	point out there is a lot of stress on the	
	future of Egypt and the future of its	
	administration. Our discussion about	
	Husny Mubarak [Inaudible] not	
	meaning those guarding him would	
	allow him to fall. [Inaudible] they	
	will read it and know what we mean.	
Male 4	What's your opinion?	
Male 1	even after all this happened and the	
TVICTO 1	Egyptians went to Europe in order to	
	discuss the topic. The Europeans	
	didn't listen. During the 1989	
	Chemical Weapons Conference in	
	Paris, they would not side with us.	
	They told us that they didn't agree	
	with us. they said they understood	
	the topic and had respect for him.	
Male 2	these positions are not respected	
1 VI aic 2	mese positions are not respected	

	T	
Male 1	there is no real basis for this. It is	
	possible to receive respect from	
	others and to respect their position	
Male 2	Mr. Secretary of Foreign Affairs	
Male 3	Mr. President, on the other hand it	
	seems that the story of the Palestinian	
	actions are the basis for the	
	discussions. As a background for the	
	Madrid Conference, the conference is	
	one of the movements of the battles	
	Iraq, United States. The United	
	States wants a major battle, to prove	
	the impact of pulling out of Iraq	
Male 2	they will pull their card	
Male 3	they will steel the card. Of course,	
	Sir, so they came up with these	
	solutions. These solutions, when they	
	reach a solution on a Gaza	
	Agreement. The way Gaza and	
	Jericho solution was reached in a	
	meeting. The subject is not of Gaza,	
	Jericho and Palestine, the subject is	
	the Arab World. And they begin to	
	discuss the Arab Economics, and the	
	Arab Situation and the	
	Palestinians are the hostages in this	
	situation they were hoping that oil	
	would be used for this plan. History	
	will play its part. Iraq is the one who	
	reached this operation All the gulf	
	regions, Saudis, Kuwaitis and others	
	are giving Billions to the Palestinian,	
	Israeli, and American Operation.	
	Also, Iraq is in the same situation,	
	Iraq is in the first situation; Iraq is in	
	the second situation, of course Sir,	
	with the national current, with all the	
	ones refusing to sign. They	
	attempted to stead the original	
	national paper and this was the	
	outcome.	
	Continuing the situation as is, there is	
	no financing for this plan. The same	
	problem they had is still the current	
	one. The Palestinians signed from	
	the beginning, a few weeks after the	

Gaza/Jericho agreement. They said this road was blocked The Jordanians are meeting in Amman in hopes of receiving investments. Even Abou Amer supporters are trying to take power over him through the Palestinian national congress thank you MR president. Saddam:	French.	
Tariq:	I am French (inaudible)	
	And everyone get the French	
	citizenship, and his kids of course.	
Saddam:	Italy and France.	
Tariq:	Everyone of them. England suffers	
1	from the problem of Hindus and	
	Pakistanis. And now Islam is the	
	second religion in England, because	
	the commonwealth (inaudible) for	
	India and Pakistan.	
Saddam:	They give birth to seven and eight	
Saddain.	(laughter).	
Tariq:	He get his card, and five years later	
Tarry.	he gets his citizenship.	
Saddam:	But the problem is that of Germany	
Sauuaiii.		
Toria	and Turkey.	
Tariq:	Germany and Turkey means the	
	problem of the fundamentalist	
	Islamic movements is a European	
	problem. It is not as much as it is an	
~	Arabic-Islamic problem. But.	
Saddam:	(inaudible)	
Tariq:	In England (inaudible)
