

	ISGQ-2003-M0004286 (1:00:58 cut)	
Male 1	<p>How are the youth? The armed forces youth? Oh my God, welcome all.</p> <p>Now we have almost for six years of being the biggest joke of the world. [Inaudible] and the situations. So we learn our lessons, from the shortages and evaluations, and the formula is somebody comes with the study and we discuss it, and confirm the work of every angle of it.</p> <p>And our brothers the comrades in the Armed Forces, they are not the type you monitor [Inaudible] within the limits and the analysis.</p> <p>But every situation is different, and has its time, its place and the reason for its creation.</p> <p>So, we have been for six years, in summary, learning from the lessons and the Institute, supposedly this battle is a new kind, compared to the Al-Qadisiyah. In Al-Qadisiyah we faced extreme obstacles. And in the Mother of All Battles we faced the science and technological advancement in its highest forms. God willing, God will bring to our people and this nation all the good.</p> <p>When we showed the experience in both places, in this situation we can prove that we learned the fighting techniques and how to fight.</p> <p>The obstacles you faced were masses of blind men, but the thinking and the goal was clear, it was to overthrow the Regime. It was done without thinking of human lives, without thinking of the value of life.</p> <p>The mother of all battles [Inaudible]</p> <p>Extremism is the same thing, people there are sectarian Fanatics, and here they are Religious fanatics.</p> <p>And the hatred is against Arabs and Islam.</p> <p>Because the Arabs hate them twice, because a nation didn't forget its role to unite itself and to practice its cultural role, and it didn't forget it's leadership role for Islam.</p> <p>So every fanaticism is retardation, and there is Khomeini's Fanaticism and the way he looks at life and issues, and here is the fanaticism of Bush and Thatcher or those gathered around them.</p> <p>In summary I don't have a thing, but you should be</p>	

	<p>precise with them, [Inaudible] and if there is a confrontation on the way God forbid, we will answer God's wish, and hopefully we will be tested, and thank you.</p> <p>But maybe you have something? You Mr. Deputy to make sure of some details just to be sure, [Inaudible]</p> <p>So this is our meeting, and do you have something? Or you have an opinion? And then we will start talking, maybe the discussion will come up with some things, and the subject is Political.</p> <p>Inspection Teams led by Ekeus, until it reaches the Security Council at the end, I don't know who they are? America and the Zionism, Zionism from behind? And Zionism is behind every international animosity. And Iraq's enemies are the Arabs' enemies.</p> <p>Did they fantasize? Are they looking for crisis? We still don't know which way they are going. Their direction is to enter every place and look at every file. This is not possible.</p> <p>[Inaudible] then we told them if it is in this formula? Then you can get in [Inaudible] is it going to end here? Until it gets to a point that the country won't have any integrity, as we see in the details. They have to respect our sovereignty.</p> <p>The leadership discussed this issue, meeting three times with the Revolutionary Command Council to decide. If they are fantasizing, then they should wake up. And if they finalized it, we will tell them god help everybody.</p> <p>And the negotiations that took place with them, not only they are putting us in a position...</p> <p>[Inaudible]</p> <p>It has been for you six years; you destroyed all things you wanted to destroy. This is why we have to shed light on this issue.</p> <p>Who can guarantee from now on? Even me myself for the last two days I am thinking of how can we guarantee.... there is a psychological card. It doesn't have anything to do with banned weapons, that's it. They destroyed the industrial foundations. They destroyed the Weapons. But can we guarantee that somebody didn't forget any file? Then what are the basics for you? What is the value of a piece of paper?</p>	
--	--	--

	<p>A Card that has everything about the past. The core issue is you make sure that machines and equipment and the industry don't produce something forbidden.</p> <p>And this issue, you are monitoring already, in every production line.</p> <p>When an officer saved the Iraqi technicians, at the last moment, he wanted to make sure that they are destroyed. He told them " you guys are 50 Teams, you guys searched every place, and we are telling you that these are destroyed. There are Gunnery ammunitions filled with Chemical, you guys remember Muthanna and Sultan and Hussein you guys remember it, I said to them "leave them don't use them until you get an order from me?"</p> <p>Habaniyyah...</p>	
Male 2	They weren't used	
Male 1	<p>They were destroyed, now they say you have to bring me documents to show when they were destroyed? What day what time? Every single missile.</p> <p>How about this? This is what got us into the Cheat and Treason Page [TN: the uprising against Saddam in 1991 after the gulf war]. He brings with him an officer with a piece of paper and tells him to write [Inaudible]</p> <p>So someone wants to find an excuse, he can find an excuse.</p> <p>But if they want to end the issue, they will say the weapons were destroyed. [Inaudible]</p> <p>Or they are assembling a new one. One of the comrades, member of the Revolutionary Command Council, it seems even our people don't believe that, there is no way that we are not hiding something small at least. Since they saw this shell. They told him some missiles needed this? I said are you better than me? [Inaudible]</p> <p>I told him " don't tell me only 16 missiles, if all the bases had 1000 missiles, we would've filled the streets" but what can you do? It doesn't exist, if we had Nuclear and Biological missiles, you think they would talk like this? Its OK let it go.</p> <p>But we never gambled on something materialistic; we look at human, God created human being</p>	

	<p>nothing like others.</p> <p>[A verse from the Koran] this is luck. And luck is in the brain and the brain is operated by conscience. And if its capability is medium maybe his conscience is alive then he can invent and be a genius, live conscience does exist.</p> <p>And a person should be protected by it. It is like you have to protect sacred things. Beginning from personal all the way to the international aspects. We wish the world didn't have any Atomic, Nuclear or Chemical and Germs weapons, also no planes and guns. So when people fight with Turban and break each other's ribs, and if it's with Turban we do have enough of them.</p> <p>We don't want the weapons to keep them in museums; we have them to defend Iraq and the Arab Nation.</p> <p>As long as Iraq exists it might be exposed to danger. And as long as the Arab Nation is invaded; of course the Nation will call its people for help against enemies, the status quo.</p> <p>Even if we accepted this situation, [Inaudible] if they tell us Israel will be stripped from their weapons and you too.</p> <p>There are people bigger than Iraq, and they are adopting the new theory of the West with all the science and technology, since Muhammad 'Ali Pasha the Great when Westerners conspired against him and they attacked because he started to make weapons.</p> <p>Nothing is, like Iraq is in now.</p> <p>When I went to Syria, the story as everybody knows, the most I wished for Baghdad, at that time I was in the last year of high school, and I have attacked 'Abdul Karim Qasim.</p> <p>I said to myself then could Baghdad become like Damascus one day? But when I was in Egypt I didn't think the same.</p> <p>A big difference. Baghdad couldn't dream to become like Beirut or Damascus or Cairo. And the link to this subject.... drink your tea and whoever doesn't want to drink let him not drink...[Inaudible]</p> <p>This house or anything like this.... it doesn't mean that you have to have a palace or ten or hundred...this can't be planted alone. Clean streets,</p>	
--	--	--

	<p>cars, shops, people coming and going, it has to be linked to its base or foundation.</p> <p>This is basics, can an army fight when its advanced in the Air Defense only? No it can't, they won't send planes, and they will send Militias! And defeat the Nation.</p> <p>[Inaudible]</p> <p>As a high school student, I didn't see Damascus as Damascus; I was looking at what is linked to the streets and people.</p> <p>But Iraq has everything.... also revival when it starts everything revives, there is a general revive, and there is retardations that is slowing the revival. But now thank God, Baghdad even with the embargo is prettier than Damascus and Cairo. This is not a materialistic comparison, it's in general. It means this generation made its homework, and they reminded themselves that they are a resistance and they revived and the people revived too.</p> <p>People reviving... [Inaudible]</p> <p>We in the leadership are the same, when one Iraqi gets injured everybody worries. [Inaudible]</p> <p>Sometimes he doesn't follow his own self. The name that he carries is the position. Whatever we built is destroyed. God willing nothing will happen to Iraq, but if they got Satan in them. And God wanted the same from us, and then we will thank God. [Inaudible]</p> <p>This is how it is brothers, I brought some examples from the Arab realities, and here is Turkey. Turkey was also against Iraq three times, and Turkey was the heart of the Arab and Islamic and Persian Empire [Inaudible]</p> <p>So a majority is like a minority, and a majority without a position and minority in a better position, always, it is in the history and the Koran</p> <p>Yes, Lt. General Sultan</p>	
Male 3	[Inaudible]	
Male 2	[Inaudible] it will bring them down, so they won't feel that they are [Inaudible]	
Male 1	Did you discuss?	

Male 2	We talked about it	
Male 1	That's it. So you talked about in more details?	
Male 2	We did all the studies on the army and we're discussing it with you Sir	
Male 1	Ok. But a person without daily duties will expire.	
Male 2	With time his energy runs out	
Male 1	What?	
Male 2	With time his energy runs out.	
Male 1	Will be finished mentally and physically. A person without mission, without a goal, is a lost person. That is what made me skeptical.	
Male 2	[Inaudible]	
Male 1	That what I mean.	
Male 2	If you allow me Sir?	
Male 1	Yes.	
Male 2	Sir you talked about duties, truthfully Sir, the aerial geographic positions are very big.	
Male 1	No, so we settle this subject. So this amount will be to much for the officers,	
Male 2	Yes Sir about 400. But they are in [Inaudible] and they have no orders	
Male 1	Also no orders.	
Male 2	Yes	
Male 1	No, that will hurt them more	
Male 2	You see them in the morning holding their stick and going to the hospital	
Male 1	Ok. Yes Mahdi	

Male 3	Yes Sir, [Inaudible] the Air Defense forces are... [Inaudible]	
Male 1	Mahdi, I don't know what the importance of the air defense. We'll see, just let me gather all the meetings with the armed forces	
Male 3	Ok Sir.	
Male 1	From that, and all the battles till now. Will see how much the air Defense's cut is.	
Male 3	[Inaudible]	
Male 1	First, and the rest...	
Male 3	[Inaudible]	
Male 1	<p>But in all over the world not only here, the division commander cannot be equal to the unit commander, or the air defense section, or the eastern communication unit.</p> <p>It cannot happen. The division commander is the brain of the army in peace and war. So the word "Equality", and that in the whole country, and the comrades know how much I hate this.</p> <p>Let someone say "ok I suggest such and such" but don't say it as an equal to the division commander or the base commander. No one is cheap to his kids and brothers. Everybody deserves the best things one can wish for his people, but this equality destroys the differences. Differences are important. Everyone should appear exactly as he is, just like his rank says. You think the army can operate if it does not have air Defense? Will not be able to operate, the plane will fly right over them all the way to Baghdad. It will hit whoever looks up. It became an issue that I [Inaudible] till now.</p> <p>Even those who did not serve in the military know way more than they used to. I know that, but I want you to deal with each case individually, say that, maybe his benefits will be more than the division commander. But you can't say he is the same as a commander, for example, no the unit commander is a unit commander, the division commander is a</p>	

	division commander and the air force commander is an air force commander, every one with his title. Let's not say they're all the same.	
Male 4	The last point Sir... [Inaudible]	
Male 1	Ok.	
Male 4	[Inaudible] Sir, we just pray to God to give you good health and to save you from any harm because you are the greatest of all, and we with God's blessing, our courageous army, and God help us to be honest and tell you the truth the way it is, and God save us from harms	
Male 1	May God save you from any harm	
Male 4	And we are ready to be under your command, you tell us and order us to do anything, and go anywhere. [Inaudible] may you and God be with us all the time, because we can't do any thing without you, May God bless you	
Male 1	God bless you. The Jewish enemy's planes have meanings far more than just Turkey. Some of it was used for political reasons, it may look temporally. But the political use is kind of a hint for Iraq to let us know that the forces around us are not the only forces, but Israel can reach us too, [Inaudible]. And a hint to Syria not to discuss the peace option too much, keep going on the same beat, and keep the same steps as the Egyptian and Jordanian leaders. But practically it got... When Israel built their network in the North, they can do big things. Israel has been in the north even before we came to power. And when the agreement happened and when the armed conflict collapsed in the North, the Israeli specialists left the area. Israel works like this so they can weaken Iraq. So their presence in the North will give them experience on dealing with Iraq in the Northern borders. Of course we can't forget that the Israelis have a vendetta with us, "they want revenge" from the Babylonian and Assyrians time, everyone defeated them, from Salah Al-Din to...they were slapped with every uprising that happened in Iraq. It looks like they are	

	<p>the worst in the world for everyone to hit them whenever possible.</p> <p>They start to get closer, with the presence of the traders in the north, some of them on their way to Turkey, the presence of their planes. You know they need a base command for that. The base command contains people, and the people are from different backgrounds, you tell them that “this is Sergeant So, and this is colonel so” some of them work for the military intelligence and some of them works for the Intelligence. Of course if the enemy can get the command, they will attack. They want to make sure when the plane gets on the top of the command they can attack; this is one of the missions. Turkey tells us ”well they informed us that we want to fly to Israel” we finished our mission and they flew away. This is it.</p> <p>I asked our intelligence services to investigate the capabilities of a missile attack on our surroundings, missiles, torpedoes and any thing they can fire once.</p>	
Male 5	Yes Sir it was 40	
Male 1	They told me that it was 40. So they did the study and think that they can hit 40 targets at once. So you need to calculate like this	
Male 5	Yes Sir, we can never [Inaudible] we wrote it all on a paper, the changes...	
Male 2	The security side?	
Male 5	Yes Sir	
Male 2	Oh yeah,	
Male 6	[Inaudible]	
Male 1	They are bothered because they were counting our palaces and they found out we have 14, and we have lots more...	
Male 6	Maybe sir...	
Male 2	Every Iraqi’s house, every tree, and the farmers	

	houses are palaces, the peoples' houses in Baghdad, Basra, 'Umarah, Salah Al-Din and al-Nasiryya... But the only thing left, in your meetings, we have to figure it out and the other things we have to take care of, so we won't have hard time with it.	
Male 7	[Inaudible]	
Male 1	Yes. God willing. Do you have anything about the air defense now?	
Male 7	The truth Sir, the problems are repeated; there are no changes on any activities, their [Inaudible] are the same about 40 to 50 per day with an average of 12 planes. So no changes happened except the weeks of 11, 12, and 13 [Inaudible]	
Male 1	When did the changes happen you said?	
Male 7	Days 11, 12 and 13 till the 14 th , they concentrated on Baghdad this time, we sent our communication to the satellite, so maybe they will take information from it. [Inaudible] Truth is Sir, I was very happy, we "Thank God" have all the missiles and antiaircraft's ready in Baghdad and Al-Askindirya, also the Chief of Staff sent us 34 Tank transporters and they all came in, [Inaudible] this is the first time we get such cooperation and in such short notice. We had 12 missile transporters also, [Inaudible]... Morale is high and we're like one family... [Inaudible]	
Male 1	Closer, to...	
Male 7	Yes, the closer...	
Male 1	Be careful of airplanes and pilots being shot down, you know the POW and all that.	
Male 7	Exactly Sir.	
Male 1	And don't doubt anything, anything is possible. In conclusion, any situation is closer to the starting line and now we have... using the missiles closer to the beginning line... [Inaudible]	

Male 7	Yes Sir, so God willing, the border line is 200 Km from Baghdad, we have all the units ready, we keep visiting them, with God's help, what we hope is the defeat will be for the enemy, we are ready Sir till the end with the help of everyone and with God's help, victory will be ours. [Inaudible]	
Male 1	About the traps, the cars...?	
Male 7	Sir, in the last meeting you enforced the idea of the moving traps, so we made cars that can hold missile batteries, I brought 23 mm guns and placed them on the cars. We have now about 30-34 guns placed on cars, that is what you call the movable traps.	
Male 1	We will give you 10 cars, 5 pickup truck and 5 Toyota Land Cruiser	
Male 7	Thank you Sir.	
Male 1	So you can go around and investigate your areas.	
Male 7	We have a great [Inaudible] they can make any machine	
Male 1	Send me a report to the Headquarters	
Male 8	[Inaudible]	
Male 1	What is "The Mother of all battles" [TN: the gulf war] news?	
Male 7	Sir, "the Mother of all battles" "thanks to God" is going great [Inaudible]	
Male 1	[Inaudible]	
Male 8	[Inaudible]	
Male 1	Make the young people relax mentally and also us...	
Male 8	[Inaudible]	
Male 1	I analyzed the subject as follows; with some important information plus your information, of	

	course you deal with it according to its secrecy. The Americans, when are they going to have the election?	
Male 8	In November Sir, and the 20 th of January, the new one will take office. So the winner will take over in January, in the beginning of the new year.	
Male 1	So the elections till October?	
Male 1	The is the election year they have, in Russia there is an upcoming election year, they started, and I don't know what the news is	
Male 8	The communist is the second, they will elect him after July	
Male 1	He becomes the second?	
Male 8	Yes Sir	
Male 1	They wanted him to be the second one, they wanted Yeltsin to be either the first or the second, nothing less, they say, if he gets less he will organize a coup, this is their speculations, their analyses...	
Male 8	You know what happened Sir?	
Male 1	Sorry?	
Male 8	An officer...	
Male 1	Officer...	
Male 8	I heard the story, [Inaudible]
